EXPERIENCE

Build and repair PCs for friends and family, troubleshoot and resolve software performance problems. 2004-present, Chester, MD.

Production Computer Lab Monitor, 2006-2008, Full Sail University – responsible for overseeing lab activities and scheduling. Helped teachers and peers with problem solving techniques for completing assigned lab projects. Tutored others in best methods for decomposing scene assets necessary for building life-like graphical images. Sought out by peers for my critical eye for detail and for my ability to quickly identify both technical and artistic solutions to key production problems.

Retail Jobs
